Sarah Johnson: I know of high school students who don't know about post offices, where they are located and how they work...

Mary Ellen Daneels: We have more **cross curricular resources to #teach 2020** and foster authentic engagement in our **Election 2020 Toolkit** [https://www.illinoiscivics.org/resources/election-2020-toolkit](https://www.illinoiscivics.org/resources/election-2020-toolkit)

Mary Ellen Daneels: The kids I work with say I am old if I am on FB  LOL

Katrina Thomas: I have a feeling that Facebook percentage is going to get lower.

Mary Ellen Daneels: **Stanford has great open resources to teach and measure civic online reasoning.** [https://cor.stanford.edu/](https://cor.stanford.edu/)

Mary Ellen Daneels: @Rebecca Rolnick- I created a digital breakout on how to vote if interested. Happy to share for your webinar on the same topic. It is not a breakout session. It is a **breakout room/escape room activity** to engage people during your webinar. Here is the lesson plan you can adapt for your use. • R Laurence Davis: When I taught Env Sci at the University level (retired now), evaluating credibility of news and internet sites was a theme that ran through the whole class. Would have been interesting to survey them before and after (not in my wheelhouse-I'm a geologist).
• Judy Braus: How should we live together?
• Sarah Johnson: this is such a great conversation! Thank you NAAEE for hosting this
• Martha Monroe: Thomas Jefferson in 1820: I know no safe depository of the ultimate powers of society but the people themselves; and if we think them not enlightened enough to exercise their control without a wholesome discretion, the remedy is not to take it from them, but to inform their discretion.
• Sara Burrell: How do we teach and encourage news literacy when so many of our older role models demonstrate and propagate such poor media literacy and civic engagement?
• Mary Ellen Daneels: Here is a great one pager about dialogue vs. debate. https://www.usip.org/sites/default/files/2017-01/Dialogue%2Bvs%2BDebate%2B-%2BUSIP%2BGlobal%2BCampus.pdf
• Mary Ellen Daneels: For those interested, I did a webinar for NAAEE on how to create a climate for navigating difficult conversations. https://naaee.org/eepro/learning/webinars/webinar-navigating-difficult
• Mary Ellen Daneels: Here is a link to the second webinar that specifically shares how to structure dialogues and match the right strategy with your purpose. https://naaee.org/eepro/learning/webinars/webinar-navigating-difficult-0
• Mary Ellen Daneels: Here is a link to Jimmeka's great website! https://www.iamnotthemedia.org/
• Kelsey McNicholas: What hopeful and powerful work, Jimmeka! Thank you for sharing it with us!
• Molly Gillespie: Jimmeka, I am so thrilled to know this work exists- so important for our youth! Thank you!
• T’Noya Thompson: This is such a wonderful conversation and such great information! Thank you all for all of the work you do!
• R Laurence Davis: This discussion is particularly relevant to science education and science-based EE. We have to separate “beliefs from facts. In the end, we, as scientists, have to ask the Earth in order to verify things. This is where it gets messy as the Earth refuses to be tidy. Most of the public does
not understand this and with the bombardment of material on the web, it becomes even harder to know.

- Mary Ellen Daneels: We do a microcredential on current and controversial issue discussions that is cross curricular if interested, oh, and it is FREE! We really dig into open vs closed issue, strategies, etc. [https://guardiansofdemocracyteachers.org/](https://guardiansofdemocracyteachers.org/)
- Katherine Smith: I would say understanding/teaching an intersectional framework can help lend support to students dealing with the nuances of overlapping political issues.
- Kei Kawashima Ginsberg: as an evaluator of this microcredential program, I can say that it's epic.
- Mary Ellen Daneels: Policy Issues are not just one thing/question...this resource from CERG might help. I would start with the Root Cause tree. [https://learn.teachingchannel.com/ed4democracy/investigation-research](https://learn.teachingchannel.com/ed4democracy/investigation-research)

Here is a link to all of the CERG videos. [https://www.civicsurvey.org/resources](https://www.civicsurvey.org/resources)
